Tajpura, Lahore Cantt, Pakistan

Cybersecurity Graduate with hands-on experience in security monitoring, vulnerability assessment, and network security, currently building expertise in DevOps through practical experience with Linux, Git, Docker, Kubernetes, and CI/CD workflows. Passionate about developing secure, scalable, and automated infrastructure while integrating security into modern software delivery practices. Strong analytical and problem-solving skills, committed to continuous learning, with a long-term goal of building a career in DevSecOps.

WORK EXPERIENCE

PITB - Arfa Software Technology Park	DevOps Intern Gained hands-on experience with Linux, Git, Docker, Kubernetes, and CI/CD workflows while supporting application deployment, monitoring, and troubleshooting, and building a strong foundation in DevOps and DevSecOps best practices.	03 - Months
IT-Solera Pvt. Ltd.	Offensive Security Intern Performed vulnerability assessments and web application security testing using Kali Linux, Burp Suite, Nmap, Metasploit, and Wireshark, while identifying security weaknesses and documenting findings based on OWASP security best practices.	03 - Months

PROJECTS

Kubernetes-Based DevSecOps CI/CD Platform	GitLab CI/CD Docker Kubernetes Trivy Prometheus Grafana Linux Implemented a DevSecOps CI/CD pipeline using GitLab CI/CD, Docker, Kubernetes, and Trivy to automate application build, security scanning, testing, deployment, and monitoring on a Linux environment.
SIEM Implementation	Splunk and Wazuh Integration Designed and deployed a SOC-style monitoring lab using Splunk and Wazuh with host-based agents. Ingested and analyzed logs, created detection rules, and investigated alerts to identify potential threats.
Final Year Project	AI-Automated Web-Based Vulnerability Scanning System Developed an AI-powered Vulnerability Scanning System that identifies web application security vulnerabilities, maps findings to OWASP Top 10 risks, and leverages NVD data to provide vulnerability insights and remediation recommendations.

EDUCATION

University of Management & Technology, Lahore, Pakistan	Bachelor's in Cyber Security Network Security, Ethical Hacking, Digital Forensic	2022 - 2026
Punjab Group of Colleges, Lahore, Pakistan	ICS Physics, Mathematics, Computer Science	2020 - 2022

SKILLS

• Linux	• Kubernetes	• Python	• Network Security
• Git & GitHub	• Jenkins	• Bash Scripting	• Penetration Testing
• Docker	• SIEM	• CI/CD	

LANGUAGES

• English
• Urdu
